verse 1:

So last night I dreamed about you again
As we saved this fantasy world in the end
I took you to your castle so way up high
Pedals flew as I stared so deep in your eyes

prechorus 1:

We triumphed over the dark lord of evil
This is unbelievable

chorus:

Sakura til that day I'm dreaming of you
Sakura deep inside your heart lies the truth
Sakura when this story ends you will fall from the sky in my arms
Til our legend lives on in the stars

verse 2:

So today I woke up without you again
As I wish this love could be more than pretend
You're out there somewhere lost in faraway lands
I'll save you I'll be the one who understands

prechorus 2:

Playing games is over this is real
It's all so inconceivable

(chorus)

bridge:

Believe it
Just like I believe in you

(chorus)

chorus:
Booth babe do you remember me
Booth babe we met way back at E3
Booth babe you know I'm rated E
E for everyone E 4 All
Booth babe do you play D&D
Booth babe wanna try out my Wii
Booth babe you know I'm rated E
E for everyone let's hang out at GDC

verse 2:
It's obvious that there's nothing we share
Like the AI you really don't care
But you look so hot with silicone boobs
Cheering me on as I pwn some n00bs

prechorus 2:
When I saw you my heart did a blue screen crash
Do you take cash

(chorus)

Imagine each day we're racking up kills
In our mansion in Beverly Hills
This is true love beyond all belief
We'll name our kids Sonic and Master Chief

(chorus)

04: Imaginary Boys

verse 1:

She wants a boy like Link who doesn't talk but listens (Hey)
To another world with InuYasha she envisions
Compared to Tamaki every other guy's an eyesore
Like L she thinks that Light Yagami is to die for

chorus:

If only I could be the hero heart throb
In the pictures by her bed
She wants someone who's perfect
Like the stories in her head
Every day I try so hard to play the part
But she plays hearts like toys
She drools over imaginary boys

verse 2:

She wants Edward Elric to be her Super Junior (Who are you calling short)
Her own Tuxedo Mask she's just like Sailor Moon
Her favorite band is Bad Luck yaoi is her every night's dream
Wish I was fair like Zack because she's my whole lifestream

(chorus)

bridge:

Just like Pokemon she's gotta catch 'em all
I'm strung up like a scroll on her wall

(chorus)

outro:

She drools over imaginary boys
Imaginary boys

05: My Life Is An RPG

verse 1:

One day I'll pull the sword from the stone
Level up til I make it on my own
March into battle as monsters attack
Don't need a credit card to hold me back
If I could be where someone understands
Launch from a cannon land in distant lands
Long time ago far far away
Don't care what anybody has to say

chorus:

I have a dream where I save the world
Recurring theme where I get away from here
All a game it's a fantasy
Everyone is an NPC
In a dream where I get the girl
Watch a scene in the wizard's palantir
Every day til I reach my destiny
My life is an RPG

verse 2:

Craving magic glory and gold
Be the greatest story ever told
Born to lead the alliance and horde
Overthrow the evil overlord
I'm so bored stuck in this 9 to 5
Need adventure show me I'm alive
How long waiting til my time will come
When I'm called upon to be someone

(chorus)

bridge:

Off somewhere slaying demons
Tell me to keep on dreamin'
That's the life for me

(chorus)

outro:

I have a dream where I save the world
My life is an RPG

A low level hero would crap in his pants
This evil so viciously strong
I've made it here oh twixt fate and through chance

Final boss it's the greatest battle of all
Final boss the fight I win or I fall
Final boss this is down to the wire no matter the cost
To victory or else all hope is lost

A duel to the death one HP at a time
Sixteen bit world hangs in our grasp

I look the bad ugly creep in the eyes
The moment of pwnage at last (Feel my wrath)

(chorus)

Now it's time to knock 'em out the box
Beat the final boss

07: OtakuRave

verse 1:
Saturday night in the heat of July
In a mecha I drop out of the sky in the blink of an eye
Hit the scene at the Tokyo club
The front of the line we stop time beam me up
Leeroy Jenkins going on raids
Duct tape 15 foot blades winning masquerades
On the prowl chasing Panty and Stocking
A plastic guitar now I'm rocking

prechorus 1:
Well we got more gold coins than Mario
Power playerz it's on let's go
In the zone tonight gonna pwn tonight
Let's set a new high score

chorus:
I'm going out to the OtakuRave
Dressed up with my friends the attention that we crave
Coming down to the OtakuRave
Saturday night the time is right to misbehave
As I roll into the OtakuRave
Mask is on my face it's time to rock the place
Grinding to the chiptunes drum and bass

verse 2:
I'm in the back hosting EG lolitas
Nomming Mountain Dew and Doritos Fritos
Thinking tonight I'm gonna get Lays
As we dance dance to the beat til the end of our days
Girl this cosplay's only a front
Beneath these lights everything that you want

Make a wish snap your hands anything that you're askin'
Like Ciel I'll be your Sebastian

prechorus 2:

We got more gold coins than Mario
Screw the haterz cool story bro
In the zone tonight gonna pwn tonight
Only thing I want is moar

(chorus)

bridge:

Sunday morning I wake up I'm here lying on the floor
Head stuck in the elevator feel it banging in the door
My hair glows in the dark Pocky drooling down my chin
Please tell me how last night happened must be epic win

(chorus)

outro:

Must be epic win
Grinding to the chiptunes drum and bass
I'm going out to the OtakuRave

08: Harajuku Girl

verse 1:

We'll ride the catbus like in Hayao Miyazaki
Streets are paved with mochi up above it's raining Pocky
Everywhere we go the people stop to take your picture
Like Godzilla we'll take by storm the whole prefecture

prechorus 1:

All aboard the airship be there soon

chorus:

You'll be my Harajuku girl
As we're halfway around the world
Your star shines bright in the Tokyo night
Ruby sapphire diamond and pearl
When you're my Harajuku girl
They'll love you all over the world
Each step you take blossoms fall in your wake
Like a neon swirl my Harajuku girl

verse 2:

Let's stay up late tonight together watching tentacles
Kaoru and Hikaru on the inside we're identical
Sold out seats to see you sing just like Utada

Life's a never-ending dream we won't say sayonara

One more dance of fly me to the moon

09: Hikikomori

verse 1:

It's been 3 days since the con

My cosplay friends are gone

I'm staring at the walls

Duct tape across the door

I'm stretched out on the floor

My Playstation calls

chorus:

Shut inside this room I'll stay right here forever

Each day her body pillow looks a little better

Shun the outside world adventure lies before me

You're the happy ending to my story

Hikikomori

verse 2:

It's been 3 weeks since the con

I've got the console on

I'm staying in tonight

Beat this game a hundred times

A hundred extra lives

But I've got no life

(chorus)

verse 3:

It's been 3 months since the con

As I wonder what went wrong

The time that I regret

I'm still staring at the screen

No game's in the machine

I reach for the reset

(chorus)

outro:

If I could stop pretending this is glory
Hikikomori

Yesterday when I flew in for the show
Swept up in the endless masquerade
Through these 3 days this time we get to know
Each other now I wish that I could stay

We're worlds apart and soon I'll be gone
Back to the land beyond the stars
Worlds apart the morning will come
I'll be off somewhere so far

verse 2:

You're dressed up like a schoolgirl
I've got wings like a dragon
Could this be more than I imagine
If I could make a wish that
This moment lasts forever
Could we make it happen

chorus 2:

We're worlds apart and soon I'll be gone
Back to the land beyond the stars
Worlds apart the morning will come
I'll be off somewhere so far
In my heart I'll never forget
The space-time collide when we met
Through the dark you're beacon I follow
A weekend together tomorrow

bridge:

Tell me is this doomed before we start

(chorus 2)

outro:

We're worlds apart

11: The Song Of Time

verse 1:

Evil vanquished Link laid down his Master Sword
The boy grew up he lived his life in fast-forward
He thought of Zelda as he sat behind a desk
Reminiscid about the days he set out on the quest

prechorus:

He reaches for his ocarina
He says I'm still a dreamer

chorus:

If I could just go back in time
I could find a way to make you mine
We'll ride horses through the great wide field
I'll protect you with my sword and shield
If I could somehow make it last
You're a princess living in the past
I'll guard the kingdom by your side
After all these years play the song of time

verse 2:

Each day at work the doubts ran through his head
Did Link have what it takes to save the world again
Still thought about her and the life he led before
Would she remember him if they met once more
