

### Up All Night

We're sneaking past security  
In boxes just like Metal Gear  
Dark hallways insecurity  
Through Silent Hill we face the fear  
The clock says almost 2:30  
AM so what's still doing here  
We're creeping out the creepers  
Stepping over sleepers  
We're staying up up up all night  
With the downtown city lights  
Watching all the magic as the characters go by  
We're staying out out out all night  
As we stay out of sight  
Tomorrow we'll be zombies but it's alright  
Don't wanna have to say goodbye  
Like Warcraft shades we go unseen  
As we burn off a day's caffeine  
Nerf guns and ninja flashlight tag  
We'll beat the pirates take the flag  
We've got no other place to go  
No one's around to tell us no  
We're creeping out the creepers  
We don't fear the reapers  
A piano open room  
It's only me with you  
How time flies by since we met back at 11  
The keys so out of tune  
You fly me to the moon  
I'll serenade you playing songs from FFVII

Met her at Gamestop Hello Kitty tanktop  
Bunny ears and pink hair fawning over Zack Fair  
Shooting Duck Hunt lolita and steampunk  
Says she likes to RP always rolls a 20  
Gravitation The organization

So I wish she would make me her bishie  
I'm loveless til that day Emo like Sasuke  
She's so kawaii so I try so hard to make her squeee  
She's so kawaii can't deny she's the one for me  
She's so kawaii in her eyes I see my destiny  
Why won't she wake up and notice me

How long waiting like this her Paradise Kiss  
Since she stepped in my life nothing has been the same  
I wonder if she even knows my name  
She says she hates Twilight Edward Cullen is lame  
She sparkles as she makes me lose the game

### Cosp:ay Girlfriend

I went downtown today  
Met a girl on the way  
She asked me why I look so lonely  
As she changed her wig  
My heart danced a jig  
Think I found my one and only  
Now you're gone I've moved on  
Someone who understands  
I got a new cosplay girlfriend  
She's fun and she's better than you  
Feels like my whole life's a whirlwind  
Everytime I see her she's always somebody new  
I'm in love with my cosplay girlfriend  
She's one that you just gotta see  
Feels like my whole life's a whirlwind  
She knows just who she wants who she wants to be  
Went to the mall arcade  
She likes the games we played  
We beat everyone at Mortal Kombat  
I told her what you did  
She nearly flipped her lid  
Says she wants to give you an uppercut  
Since you're gone I've moved on  
We're making crazy plans  
This weekend at the con  
We got our badges on  
Now everyone is taking pictures  
You're far away  
So yesterday  
Been sunshine ever since I kissed her

## Lady And The Trap

It started watching hentai in the dark (wo-oh)  
Like DDR a beating in my heart (wo-oh)  
Through her holy veil she looked me in the eyes  
Call me Bridget boy you're in for a surprise  
Is that a cat tail she's got an Adam's apple  
Speaking with a deep voice little bit of peach fuzz  
Get her number anyway think about her everyday  
As she's having her way baby this is anime because  
He's a she's a lady and the trap  
She's a he's a lady and the trap  
He's a she's a lady and the trap  
She's a he's a lady and the trap  
A J-pop song comes on we start to rock (wo-oh)  
She reached up my leg to grab my... hand (wo-oh)  
First she thrilled me now all joy has turned to pain  
I'm feeling guilty gearing up for all the shame  
When the light switched on I found out my mistake  
She was a fake a guy a lie just like the cake  
Her deep secret hides beneath  
She's like a sword inside a sheath  
Aww crap

## Expert Mode

I'm at the final boss one life left  
See you captive in the dungeon on my screen  
I thought I'd reached the end of my quest  
The evil RockBand warlord jumps between us and he screams  
Can you play this song on expert mode?  
The only way you get past me  
Button mashing til my face explodes  
We'll shred the controllers let's see  
Now press start  
When the smoke cleared I knew I'd won  
Encore perfect score matched up every jewel  
He laughs (Ha) I'm just warming up son  
Double or nothing punk I'm taking you to school  
As my thumbs start getting tired  
The prison door unlocks I'm with you my girl (Yes)  
The RockBand warlord he's expired  
Battle for the glory for the epic for the world  
(Well excuse me princess)

## VK Band

If I could be just like Miyavi  
Get some fashion sense I'd look just like Ayabie  
If I was in Malice Mizer like Gackt

An CañDir En Grey who I am today  
Gonna start a VK band  
Make it big time in Japan  
Rockin with these cosplay chicks  
I'll be so in demand  
With my VK band  
A whole new master plan  
Soon we'll be the awesomest androgynous and glam  
I'll be the man  
If I could shock like penicillin

There's a crossroads life puts you to the test  
Sets you on a journey an end you'll never rest  
On these lost roads the doorway calls to you  
You're reaching arm approaches the sunlight breaking through  
This is it now's the time  
Open up let your colos shine

Feel the rush go by racing through the sky  
Gonna spread these wings we're flying  
Going Super Saiyan

All the faces shocked all the stages rocked make it to the top  
One more achievement unlocked  
Still you're out there after all this time  
Searching through a memory long lost left behind  
Now you're waiting you're calling for a fight  
Building up the strength to take it all tonight

### Noobslayer

Your eyeballs bleeding as the game has lost its fun  
All the hours level grinding to be number one  
The lags and headshots all the punishments you've faced  
Time to frag redemption time to take your rightful place  
Noobslayer they say you're wasting life away  
Noobslayer it all comes down to today  
Blisters burning rhythms 'cross the sweat drops on your palms  
All the algorithms spawning monsters toting guns  
Faceless demons laughing through the headset in your brain  
Words spray down like fireballs get set here comes the pain  
Noobslayer they say you're wasting life away  
Noobslayer it all comes down to today  
Got the power in your hand you're in control you're in command  
It's time to take a stand you came to play  
Noobslayer (Heh heh heh)  
You're on the seat drawn the heat  
It's time to make ends meet

Infatuation burning me if you were Japan and Germany

Dream that someday you'll be mine Vocaloid and Melodyne

You're right here with me right off my TV

Wind blows through your hair light shines everywhere  
You could be my wide-eyed princess  
I could be your spiky haired hero  
We could escape the every day get away so far from here  
Oh you could be my wide-eyed princess  
I could be your chibi faced zero  
I could save you from this place let's disappear  
Cherry blossoms pink just like Zelda and Link  
We'll make it on our own soon we're almost there  
On the airships fly castles in the sky  
We'll be just you and I without another care  
It's like you came here from a distant space and time  
I can feel the magic deep within your eyes  
Wide-eyed princess
